

AIR DISC BRAKE SOLUTIONS FOR THE AFTERMARKET.

MERITOR

ALLFIT

MEET THE RISING DEMAND FOR AIR DISC BRAKE PARTS.

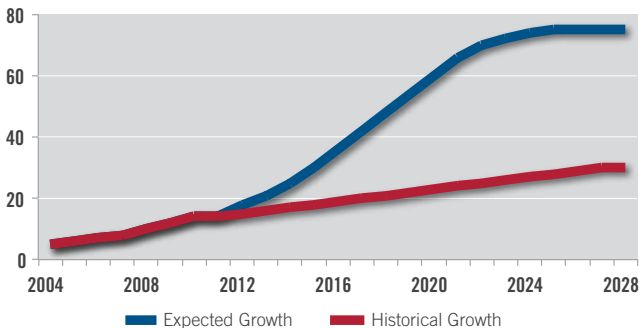

Demand For Air Disc Brakes Is Soaring.

The trucking industry has made its decision about air disc brakes, and their popularity is rising fast. Production has doubled since 2012. Air disc brakes are projected to represent more than a third of trucking industry brake production volume by 2019.

So now is the time to prepare for the increased demand for air disc brake friction and components. As a recognized leader in braking technology, Meritor® offers superior Genuine and AllFit aftermarket air disc brake solutions for tractors, severe-duty applications, buses and trailers.

The One-Stop Air Disc Brake Solution From Meritor.

Meritor brings unsurpassed expertise to air disc brake solutions, providing original equipment (OE) brake products with Meritor Genuine air disc brake systems for linehaul and vocational applications.

We have combined our OE and aftermarket expertise to bring you the best of both worlds: original replacement solutions for Meritor Genuine air disc brakes, and the best aftermarket components for replacing all major North American OE air disc brake products, including Bendix®, Haldex®, WABCO®, or Meritor. As a brake technology leader, Meritor has designed a superior, affordable aftermarket solution with the widest offering of air disc brake components, including pads, rotors, brake chambers and all hardware and service kits.

Meritor is the one-stop shop for your air disc brake aftermarket needs, no matter the vehicle application, allowing you to bundle orders and save money.

Meritor Air Disc Brake Replacement Coverage Portfolio.

Meritor offers superior replacement products for all major North American air disc brake brands. This chart shows complete Meritor product coverage for all production supplier air disc brake brands.

MERITOR ALLFIT AIR DISC BRAKE PRODUCT PORTFOLIO.

The Meritor AllFit air disc brake lineup is engineered to provide the best possible aftermarket solution with the exacting performance and specifications required when replacing OE products. Meritor AllFit air disc brake friction and components also meet unsurpassed Meritor quality standards for superior stopping distance, lower maintenance downtime and costs and lasting value.

AllFit Brake Pads

As the leader in heavy-duty friction, Meritor AllFit air disc brake pads feature the 2025 standard Level N material for zero-copper compliance. That enables you to standardize on Meritor air disc friction with complete confidence.

Plus, AllFit friction meets FMVSS 121 reduced stopping distance requirements, and we have the verified testing to confirm that Meritor AllFit air disc brake pads meet or exceed competitive genuine OE performance.

AllFit brake pads are engineered and manufactured in North America, to provide proven performance in many tough applications such as refuse trucks and transit.

- Widest industry offering of air disc brake pads
- All pads rate “Level N” Friction – copper-free and asbestos-free on the Automotive Aftermarket Suppliers Association (AASA) LeafMark scale, which is important in an increasing number of states
- Premium mechanical retention system with Meritor backing plate technology features the leading mechanical system in the industry, for the most secure bond between the friction and the backing plate

Design Features

- Mechanical retention, to help prevent rust-jacking
- Low rotor wear
- Post-cured, for a shorter break-in period
- Minimal brake fade
- Made in North America

Superior Product Design Means Superior Results.

Same “Positive Mold” manufacturing process used with genuine OE pads

Post-cured at high temperature to reduce initial break-in period

Powder-coated backing plate for maximum corrosion protection and brake fluid protection

Unique Mechanical Retention System (MRS) available for extreme applications. When combined with resin bonding, it prevents “rust-jacking” in severe weather conditions

AllFit Rotors

- Widest offering of ADB rotors available
- Made to exacting OE specifications
- Hardware included on many items

AllFit Brake Chambers

Meritor provides an extensive selection of universal chambers to match all popular North American competitive air disc brake systems for a wide variety of applications, while meeting OE specifications. For more details, see Publication PB-1404.

You Deserve Complete Air Disc Brake Customer Support.

From warranty support to comprehensive product information to unsurpassed customer care, Meritor delivers.

Meritor AllFit air disc brake components are covered by our complete Meritor 1-Year aftermarket warranty. For details on warranty coverage, popular Friction Material Standards Institute (FMSI) numbers, engineering drawings, dimensional data, competitive cross-reference charts and expanded views, see our air disc brake catalog (Publication PB-1461). You can order or download it at meritor.com/LOD.

Get the attention you deserve with Meritor's extensive customer support. For complete product information and spec'ing assistance, training and technical support, you can count on our expert field sales force. Meritor's industry-leading Customer Care team provides an all-purpose, one-call solution for complete customer satisfaction. For information, call Customer Care at 888-725-9355. In Canada, call 800-387-3889. Or visit meritorpartsonline.com.
