

MERITOR® 24-HOUR DRIVESHAFT PROGRAM

Quality Meritor Driveshafts. 24-Hour Availability.

When a vehicle is sidelined due to a driveshaft repair, time is of the essence. You need access to proven, quality parts to quickly get your customer's vehicle back on the road. Minimize downtime and replace worn driveshafts with new, genuine Meritor MXL and RPL driveline assemblies with the Meritor 24-Hour Driveshaft Replacement Program. The program allows you to order popular Meritor driveshaft assemblies with unit down priority status and 24-hour availability*.

Quality Meritor Driveshafts You Know and Trust.

Meritor drivelines have been linking transmissions and drive axles for trouble-free driving for more than 100 years. Meritor MXL and RPL Series drivelines deliver more time on the road, lower maintenance and a greater ROI.

- Meritor MXL drivelines offer extended lubrication intervals to reduce operating costs and extend the life of linehaul and general service applications. The MXL driveline can cut lubrication costs in half. With its advanced nitrile seal, the MXL extends lubrication intervals to 100,000 miles.
- Meritor Permalube™ RPL drivelines were the first in the North American heavy-duty commercial vehicle industry to be permanently lubricated and sealed for life to reduce maintenance and save money for cost conscience fleets. The advantages are outstanding: reduced operating and maintenance costs, industry-leading warranties, easy serviceability and extended U-joint life, particularly on gear-fast/run-slow drivetrains and higher torque applications.

Rapid Replacement is Just a Phone Call Away.

Access to popular Meritor genuine replacement driveshafts is easy. Simply call the Meritor Customer Care team with your preferred driveshaft model and a representative will help place your order.
